[2] ABOUT US

DARKFUME was created with the goal of making a significant contribution to the Essential Oils market. Our founders aimed to inspire change by supporting the worldwide distribution of premium quality Essential Oils. Headquartered in NEW DELHI and Manufactured in KANNAUJ PLANT, "Darkfume" started wholesaling essential oils and packaging materials, with only a handful of distilleries. Eventually, our product line expanded to include cosmetic bases developed in-house, as well as fragrances and botanical extracts.

Today, "Darkfume" is a leading wholesale supplier of essential oils, natural raw materials, and specialty packaging. We source directly from ethical producers in all six continents, enabling us to offer the largest selection of pure essential oils at accessible prices. Our longstanding reputation allows us to negotiate high-volume contracts with global partners and offer some of the most competitive wholesale prices in the industry. This is especially beneficial for our enterprise business customers as it enables us to offer exclusive pricing for bulk orders.

"Darkfume" is a certified Organic, Kosher, and Vegan facility. Our facilities are equipped with a laboratory that uses state-of-the-art gas chromatography to rigorously test the veracity of the purity and potency of our sourced oils. This ensures that our customers are always supplied with superior products. Whether you are in the market to make a small batch for your store or a large run for your global brand, "Darkfume" can satisfy your needs. If you are looking for industry-leading products, timely order fulfillment, a knowledgeable sales team, and exceptional customer service, then we are you one-stop shop.
